Constraints

1

BLOGS project governance narrative into public prose. Each post maps to LEDGER evidence commit history, discovery patterns, and architectural decisions rendered as readable story.

1. Constraints

- MUST: Every post declares front matter (title, date)
- MUST: Posts live in `_posts/` following Jekyll naming
- MUST: `BLOGS.json` index is compiled never hand-edited
- MUST: `CANON.json` is compiled never hand-edited
- MUST: Post content maps to governed work (LEDGER commit)
- MUST NOT: Publish ungoverned narrative (fiction without evidence)
- MUST NOT: Hand-edit compiled indices (`BLOGS.json`, `CANON.json`)
