

COMPLIANCE CANON

2026-03-18

Dexter Hadley, MD/PhD

Hadley Lab CANONIC

Abstract

COMPLIANCE is the tier algebra.

Contents

Tiers are cumulative governance surfaces. Inheritance is monotonic.

Constraints

- MUST: Define tier thresholds and required surface
- MUST: Treat tier gates as cumulative (children add
- MUST: Keep tier rules in GOV; runtime interprets o
- MUST NOT: Duplicate tier algebra in sibling scopes
