

BLOG CANON

2026-03-18

Dexter Hadley, MD/PhD

Hadley Lab CANONIC

Abstract

BLOG is the editorial voice every post a governed artifact, sourced, compiled, and surfaced; the blog publishes what the system proves.

hadleylab.org Governed Research. Every claim cited.

Contents

- **POST_IS_GOVERNED_ARTIFACT** every post is a governed artifact with declared front matter (title, date, scope, tags); no hand-published output.
- **CLAIMS_SOURCED_FROM_GOV** every claim is sourced from governed scopes; the blog publishes what the system proves, not what the author asserts.
- **PUBLISH_IS_LEDGERED** every publish event is ledgered (author, date, scope, commit hash); SHOP-safe projections are emitted for the public surface. ## Constraints

MUST: Source every claim from governed scopes
MUST: Declare front matter per post (title, date, scope, tags)
MUST: Compile through MAGIC pipeline no hand-published output
MUST: Emit SHOP-safe projections for public surface
MUST: Ledger every publish event (author, date, scope, commit hash)
MUST: Validate all citation codes against governed scopes
MUST NOT: Publish private or VAULT-gated content on public surface
MUST NOT: Publish unsourced claims
MUST NOT: Hand-author compiled outputs
MUST NOT: Bypass build pipeline
