Dexter Hadley, MD/PhD

Hadley Lab CANONIC

Abstract

BOOK is the long-form publishing lane every manuscript a governed artifact authored in markdown, compiled through MAGIC, surfaced on the governed frontend.

hadleylab.org Governed Research. Every claim cited.

Contents

- **MANUSCRIPT_IS_GOVERNED** every chapter sources its claims from governed inputs; chapters are individual files, one chapter per file.
- **COMPILED_THROUGH_MAGIC** manuscripts compile through the MAGIC pipeline and validate before deployment; no hand-rendered output ships.
- **PROOF_WITH_EVERY_PUBLICATION** every publication emits proofs (author, title, chapter count, commit hash) and each child scope declares a domain-specific Axiom. **## Constraints**

MUST: Publish from governed inputs only every chapter
MUST: Emit proofs with every publication (author, title, chapter count, commit hash)
MUST: Validate before deployment
MUST: Declare domain-specific Axiom per child scope
MUST: Organize chapters as individual files (one chapter per file)
MUST: Gate premium content via COIN tiers
MUST: All citation codes resolve on every surface
MUST NOT: Store manuscript as single monolithic file
MUST NOT: Publish private content on public surface
MUST NOT: Hand-author compiled outputs
