

CALENDAR CANON

2026-03-18

Dexter Hadley, MD/PhD

Hadley Lab CANONIC

Abstract

CALENDAR is the time axis of the galaxy every meeting governed, every participant resolved, every event visualized.

hadleylab.org Governed Research. Every claim cited.

Contents

- **CALENDAR_IS_TIME_AXIS** CALENDAR is the time axis of the galaxy; events project into TIMELINE as a governed lane.
- **PARTICIPANT_VIA_CONTACTS** participants resolve through the CONTACTS service; no hardcoded participant mappings.
- **PRIVATE_EVENTS_STAY_PRIVATE** private calendar data is never exposed on public surfaces; every recurring event is governed. ## Constraints

MUST: Resolve participants via CONTACTS service

MUST: Emit CALENDAR lane events to TIMELINE

MUST: Govern every recurring event

MUST NOT: Hardcode participant mappings

MUST NOT: Expose private calendar data on public surfaces
