

DEV CANON

2026-03-18

Dexter Hadley, MD/PhD

Hadley Lab CANONIC

Abstract

DEV is the Governor General's intel center every user visible, every issue surfaced, aggregated from all service scopes.

hadleylab.org Governed Research. Every claim cited.

Contents

- **DEV_IS_INTEL_CENTER** DEV is the aggregated developer INTEL view; the Governor General sees all user activity across services from one surface.
- **USER_IS_VISIBLE** every user is visible and every issue is cross-referenced to its governed scope.
- **NO_DUPLICATED_GOVERNANCE** DEV aggregates, it does not duplicate; governance still lives in the originating service scope. ## Constraints

MUST: Surface all user activity across services
MUST: Cross-reference issues to governed scopes
MUST: Aggregate developer INTEL from all service s
MUST NOT: Duplicate governance from other services
MUST NOT: Hardcode developer lists
