

KYC CANON

2026-03-18

Dexter Hadley, MD/PhD

Hadley Lab CANONIC

Abstract

KYC validates identity and compliance every claim verified, every verification ledgered, unverified claims never accepted.

hadleylab.org Governed Research. Every claim cited.

Contents

- **IDENTITY_GATES_ACCESS** identity is verified before access is granted; unverified identity claims do not pass the gate.
- **CLAIM_IS_EVIDENCED** every compliance claim carries evidence and every verification event is ledgered.
- **NO_PUBLIC_EXPOSURE** verification data is never exposed on public surfaces; access is auth-gated. ## Constraints

MUST: Verify identity before granting access

MUST: Evidence every compliance claim

MUST: Ledger every verification event

MUST NOT: Accept unverified identity claims

MUST NOT: Expose verification data on public surfaces
