

LATEX CANON

2026-03-18

Dexter Hadley, MD/PhD

Hadley Lab CANONIC

Abstract

LATEX is a compiled surface governance lives in markdown, no raw LATEX in GOV, compilation is deterministic.

hadleylab.org Governed Research. Every claim cited.

Contents

- **MARKDOWN_IS_GOV** governance lives in markdown; raw LaTeX is never stored in the GOV layer and compiled outputs are never hand-edited.
- **COMPILATION_IS_DETERMINISTIC** the LaTeX surface produces deterministic output from the same governed inputs.
- **CITATIONS_RESOLVE** every citation resolves in the compiled output; unresolved codes do not ship. ## Constraints

MUST: Compile from governed markdown inputs
MUST: Resolve all citations in compiled output
MUST: Produce deterministic output from same inputs
MUST NOT: Store raw LaTeX in governance layer
MUST NOT: Hand-edit compiled outputs
