

PLUGINS CANON

2026-03-18

Dexter Hadley, MD/PhD

Hadley Lab CANONIC

Abstract

PLUGINS are composable client-side extensions one plugin one concern, channels compose, no un-governed plugins in production.

hadleylab.org Governed Research. Every claim cited.

Contents

- **ONE_PLUGIN_ONE_CONCERN** each plugin has a single responsibility; bundling concerns is disallowed.
- **CHANNELS_COMPOSE** plugins compose through the channel architecture and never cross plugin boundaries directly.
- **MANIFEST_IS_GOVERNED** every active plugin is listed in a governed manifest; un-governed plugins never reach production. ## Constraints

MUST: One plugin, one concern (single responsibility)

MUST: Composable via channel architecture

MUST: Governed manifest for all active plugins

MUST NOT: Allow ungoverned plugins in production

MUST NOT: Cross plugin boundaries without channel
