

SEED CANON

2026-03-18

Dexter Hadley, MD/PhD

Hadley Lab CANONIC

Abstract

SEED is the media acquisition lane every instance declared, every sync verified, every source archived.

hadleylab.org Governed Research. Every claim cited.

Contents

- **INSTANCE_IS_DECLARED** every acquisition instance is declared in governance; ungoverned media is not acquired.
- **SYNC_IS_VERIFIED** every sync is verified before it lands; unverified syncs do not count.
- **SOURCE_IS_ARCHIVED** every source is archived so the acquisition is reproducible and provenance is preserved. ## Constraints

MUST: Declare every acquisition instance

MUST: Verify every sync

MUST: Archive every source

MUST NOT: Acquire ungoverned media

MUST NOT: Allow unverified syncs
