

TIMELINE CANON

2026-03-18

Dexter Hadley, MD/PhD

Hadley Lab CANONIC

Abstract

TIMELINE is the temporal index of the galaxy every governed event timestamped, every lane joined, every source immutable.

hadleylab.org Governed Research. Every claim cited.

Contents

- **EVERY_EVENT_TIMESTAMPED** every governed event is timestamped; ungoverned events never enter the timeline.
- **LANES_JOINED** all event lanes join into a unified timeline; the JOIN is the timelines function.
- **SOURCE_IMMUTABLE** source records are immutable; historical timeline entries never mutate. ## Constraints

MUST: Timestamp every governed event

MUST: Join all event lanes into unified timeline

MUST: Immutable source records

MUST NOT: Mutate historical timeline entries

MUST NOT: Allow ungoverned events in timeline
