Abstract

TRANSCRIPT is the universal evidence substrate every conversation hashed, every stream immutable, every transcript ledgered.

hadleylab.org Governed Research. Every claim cited.

Contents

- **CONVERSATION_HASHED** every conversation is hashed; the hash is the evidence signature.
- **STREAM_IMMUTABLE** streams are immutable; archived transcripts never mutate.
- **TRANSCRIPT_LEDGERED** every transcript is ledgered; private transcripts are never exposed on public surfaces. ## Constraints

MUST: Hash every conversation

MUST: Immutable streams

MUST: Ledger every transcript

MUST NOT: Mutate archived transcripts

MUST NOT: Expose private transcripts on public surfaces
