Dexter Hadley, MD/PhD

Hadley Lab CANONIC

Abstract

UPTIME monitors all product domains and critical surfaces every domain checked, every outage evidence, every recovery ledgered.

hadleylab.org Governed Research. Every claim cited.

Contents

- **EVERY_DOMAIN_MONITORED** all governed domains are monitored; production domains are never unmonitored.
- **OUTAGE_IS_EVIDENCE** every outage is evidenced and retained; monitoring failures are never silently dropped.
- **RECOVERY_IS_LEDGERED** every recovery is ledgered so mean-time-to-recovery is measurable and auditable. ## Constraints

MUST: Monitor all governed domains

MUST: Evidence every outage

MUST: Ledger every recovery

MUST NOT: Allow unmonitored production domains

MUST NOT: Silently drop monitoring failures
