

# DECKS CANON

2026-03-18

Dexter Hadley, MD/PhD

Hadley Lab CANONIC

---

## Abstract

DECKS are governed presentation artifacts every pitch a CANON-named scope, content mapped to governed services and evidence.

---

**hadleylab.org** Governed Research. Every claim cited.

Contents

- **PITCH\_IS\_SCOPE** every deck is a named directory; CANON names the audience and the audience IS the scope name.
- **CONTENT\_IS\_GOVERNED** deck content maps to governed services and evidence; each deck directory contains {DECK}.json as compiled slide data.
- **ARCHIVES\_IN\_GIT\_PLUS\_RUNTIME** deck archives live in git history and runtime state; DECKS project governance into pitch format with no hand-curated archive. ## Constraints

MUST: Every deck is a named directory (audience is  
MUST: Each deck directory contains {DECK}.json (con  
MUST: DECKS.json index is compiled never hand-edi  
MUST: Deck content references governed services and  
MUST: Deck rendering uses DESIGN theme layout: deck  
MUST NOT: Create ungoverned presentations (every pitch  
MUST NOT: Hand-edit compiled indices (DECKS.json, CANON
