Abstract

OPERATIONS is fleet runbooks sites declared, assets synced, recovery documented.

hadleylab.org Governed Research. Every claim cited.

Contents

- **SITES_DECLARED** all fleet sites are declared in FLEET.md; undeclared sites are never deployed.
- **ASSETS_SYNCED** shared assets sync via bin/sync-fleet; manual asset copying is not allowed.
- **RECOVERY_DOCUMENTED** recovery is documented so the full runtime can be restored in five commands. ## Constraints

MUST: All fleet sites declared in FLEET.md

MUST: Shared assets synced via bin/sync-fleet

MUST: Recovery documented full runtime restored in five commands

MUST NOT: Deploy undeclared sites

MUST NOT: Manual asset copying sync-fleet is the mechanism
