

bin CANON

2026-03-18

Dexter Hadley, MD/PhD

Hadley Lab CANONIC

Abstract

Three engines. Three tiers. Each axiom self-closes. Together = 255 = MAGIC.

hadleylab.org Governed Research. Every claim cited.

Contents

Constraints

- MUST: Every executable governed documented purpose
- MUST: Every build validates via magic scan 255 or
- MUST: Every deploy ledgers to LEDGER
- MUST: magic binary is the single source of dimension
- MUST: Each engine self-closes no infinite recursion
- MUST NOT: Hardcode paths discover from governance tree
- MUST NOT: Deploy without validation passing
