

RECOVERY CANON

2026-03-18

Dexter Hadley, MD/PhD

Hadley Lab CANONIC

Abstract

CANONIC survives any single point of failure.

hadleylab.org Governed Research. Every claim cited.

Contents

1 Constraints

1

Governance is the source of truth. If governance is lost, everything downstream is unrecoverable. Recovery governance ensures no single failure hardware, account, provider destroys the governance chain.

1. Constraints

- MUST: Maintain offsite backup of all GOV repos (min)
- MUST: Backup LEDGER and VAULT independently of GOV
- MUST: Test restore from backup quarterly (next: 2023-01-01)
- MUST: Document restore runbook in this scope
- MUST: Version-pin all CI dependencies (no floating versions)
- MUST: Maintain local clones of all GOV repos (CANONIC)
- MUST NOT: Store backup credentials in governance tree
- MUST NOT: Depend on a single provider for all copies (min 3)
